

# PLUMSTED TOWNSHIP POLICE DEPARTMENT

Chief Earl E. Meroney Jr.  
2 Cedar Street  
New Egypt, New Jersey 08533

The Plumsted Police Department is pleased to report the implementation of body cameras.

All Plumsted Police Officers are currently utilizing wearable video/recorders effective June .

It is the policy of the Plumsted Police Department to utilize wearable video/audio recorders to assist agency personnel in the performance of their duties by proving an accurate and unbiased recorded account of an incident and to maintain the necessary safeguards that will ensure the non-discriminating use as well as proper preservation of evidence that may be obtained through use of this technology.

Wearable video/audio recorders provide a clear and unbiased recorded account that protect both citizens, as well as the officers.

Below are pictures of what the wearable video/audio recorder looks like, and where on the officer this recorder is located. The wearable video/audio recorder will be located in the center of the Officer's chest, on the exterior of his/her uniform, as shown below. The Police department utilizes the DIGITAL ALLY – FirstVu HD FS Series Body Worn Camera as see below.
